## Documentation of Department Discussions

### **Strengths of the Program**

We have enthusiastic, hard working and dependable Music Ed. candidates coming up through the program and we anticipate that they will do very well.

### **Areas to Improve**

We would like to see the number of our Music Ed. candidates grow.

### **Changes / Updates / Topics for Discussion**

(syllabi, college catalog, curriculum, specific courses, specific assessments, etc.)

In the rejoinder process we added a number of rubrics, changed some grading policies and determined we would use a department wide grading scale. These changes will be implemented beginning in the 2012-2013 school year. We anticipate these changes will be beneficial to our program and help us more easily document the progress of our Music Ed. candidates.
